

IN PARLOUR
LONDON

The background features a white central area with watercolor washes. At the top, there is a blue wash that transitions from a light, airy tone to a darker, more saturated blue. At the bottom, there is a red wash that transitions from a light, dusty rose to a deeper, more vibrant red. The edges of the washes are soft and blended, creating a textured, artistic feel.

TANNING

OUR APPROACH

Our tanning artists are trained personally by Amanda Harrington in her Bespoke Body Contouring Technique. As part of their training they are shown how to look at each client's skin colour, undertones and skin type and to discuss their unique expectations. Products from the Amanda Harrington London range are then selected to suit each particular client and the occasion.

Each appointment begins with the application of barrier cream to protect typically dry areas, followed by a hydrating tinted base-cream which is applied by hand. Customised colour tint is then applied using Amanda's range of tanning brushes, which ensures a natural and streak-free finish that can last up to 10 days. Colour can then be built and strengthened in key areas to camouflage blemishes and, using Amanda's contouring techniques, to give the appearance of a defined and sculpted form.

A preparation and aftercare guide will be provided prior to your first appointment.

'I can't rave enough about the service that was provided, from the tan itself but also the professionalism from the tanning artist.'

BESPOKE BODY CONTOURING

Applied by hand and brush, this world-renowned sunless tan will give you a streak-free glow and long-lasting colour that works with your natural skin tone. Your artist will follow the body's natural shape to define and shade targeted areas. The result is a toned appearance, with emphasis on enhancing your natural silhouette and bone structure.
